Tips to help you save money on your prescriptions:

- **Ask for generics first.** Generic drugs can cost up to 80 percent less than brand name drugs.
- **Remember the preferred drug list.** If a generic drug isn't available, ask your doctor to prescribe a drug on your plan's preferred drug list, if appropriate. You will pay more for a brand name medication not on the preferred list.
- **Order 90 day supplies of long-term medications** to save money. You must receive your long-term prescriptions at a CVS pharmacy or from CVScaremark Mail Service Pharmacy.
- **Fill short-term prescriptions at a network pharmacy.** You will generally pay more for short-term (30 days or fewer) prescriptions that are filled outside the CVScaremark Retail Pharmacy Network.
