

Scope of Services

An Indefinite-Quantity Contract to Provide Equipment Maintenance Repair and Service to Apollo Brand Camera Video Recording Systems and Associated Equipment. The contract provides for contingency repairs when Apollo and CTA mutually determine that the repair is not covered under warranty and is a minor repair. Apollo Video Technology manufactures proprietary security system camera/ video hardware and software for transit applications.

Approximately, 1,580 CTA Buses have Apollo brand video camera system currently installed. The purpose of camera and video system equipment is to monitor the safety and security of the riding public and CTA employees who operate our equipment on a daily basis.
