

SCOPE OF WORK

During the course of normal warranty repairs to CTA's Thermo-King Air Conditioning System, there may be repairs and/or parts needed to complete the repair that are not covered by warranty. In such cases and with the written approval of the Authority, the mechanic or technician can complete the repairs and return the bus to revenue service in the shortest possible time. The expenses not covered under warranty may include both parts and labor. Travel expenses are not covered as the mechanic is already there performing warranty service.

The CTA has approximately 1868 buses in revenue service. All buses are equipped with Thermo-King HVAC (Heating, Ventilation, and Cooling) equipment. The vendor must be TK authorized to perform warranty work and certified to repair the following TK HVAC models used on revenue buses at the CTA, R6-M2, T11-M126, T11-M114, AT15-M8, AT18-M4, AT18-M3, TE15-M1 and AM11 960 M2.

Any overtime charges for labor will only be accepted with the written permission of the Chief Engineer, or his designee.

CONTRACT DURATION

This Contract shall be in effect for a period of up to 36 months from date of Contract award.
