

Welcome.

Your input is needed on how the new Wilson Transfer Station can better serve you.

Your input will be used to help guide us in finalizing the plans for the new station.

Question? CTA representatives are stationed around the displays to help you.

RED AHEAD PROGRAM

The Red Ahead program is a comprehensive initiative for maintaining, modernizing and expanding Chicago's most traveled rail line.

Wilson Transfer Station Project

BUILDING A NEW
CHICAGO
★ ★ ★ ★

About Wilson Transfer Station

-  The CTA Red Line runs 24 hours per day and carries 40% of all CTA train riders
-  CTA Bus Routes #78 Montrose and #36 Broadway serve the station
-  The station serves approximately 6,300 average weekday customers
-  The Wilson Red Line Station was built in 1923

Wilson Transfer Station

Wilson Transfer Station Project Goals

Improve Station Access and Train Travel

- 🚆 **Speed travel and increase capacity by providing access to Purple Line Express**
- 🚆 **Improve access for people with disabilities with addition of elevators and other ADA compliant features**
- 🚆 **Provide convenient entrances to capture more riders**

Modernize Station and Infrastructure

- 🚆 **Completely replace station and track infrastructure, including segments that date back to 1900**
 - reduce travel time
 - improve appearance
 - reduce maintenance costs

Promote Community Development

- 🚆 **Improve appearance and pedestrian environment on Broadway and Wilson by removing columns from the street**
- 🚆 **Provide opportunities for Transit Oriented Development**
- 🚆 **Serve as the anchor to a revitalizing Uptown neighborhood**

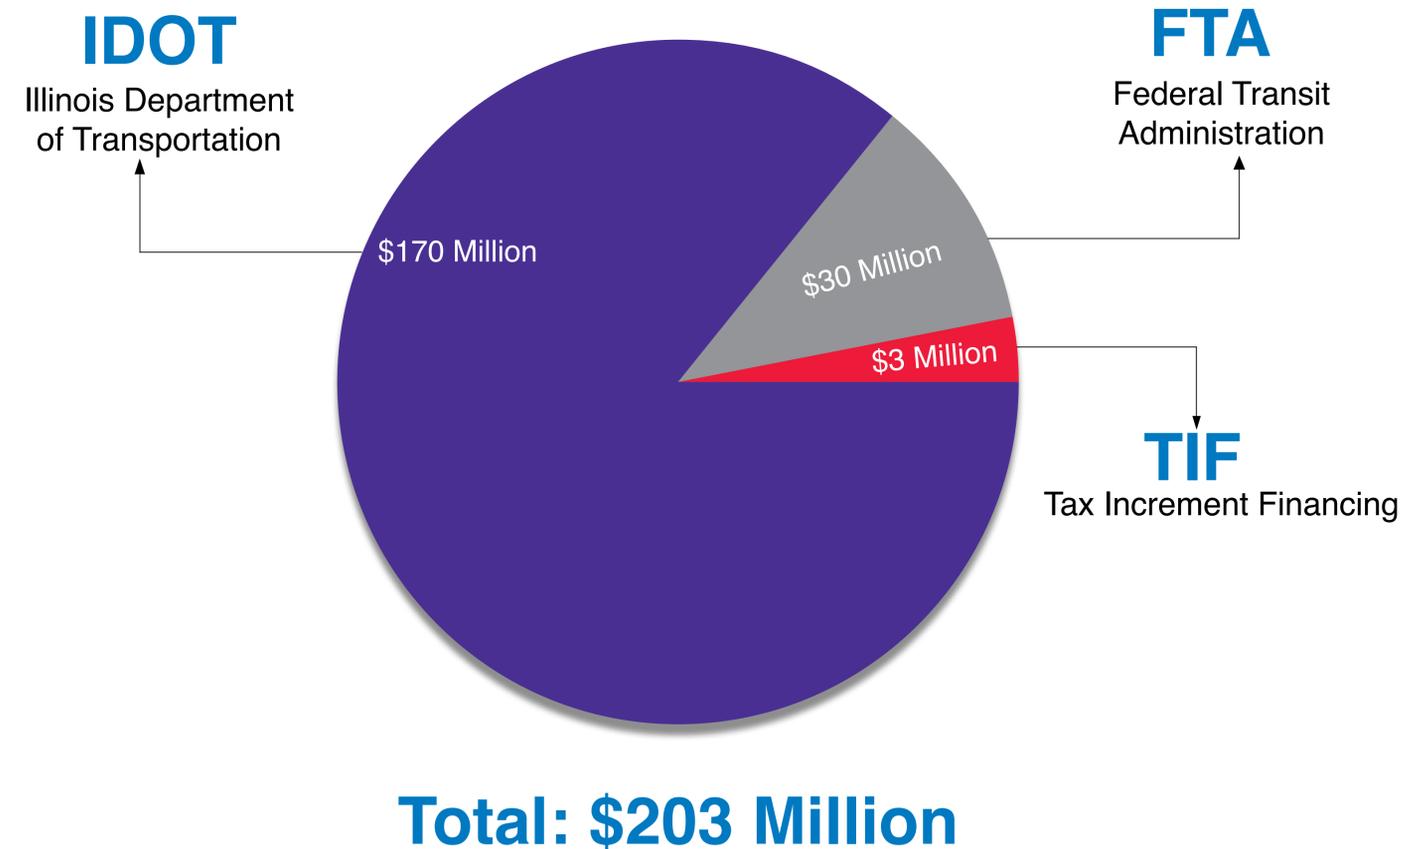

Schedule

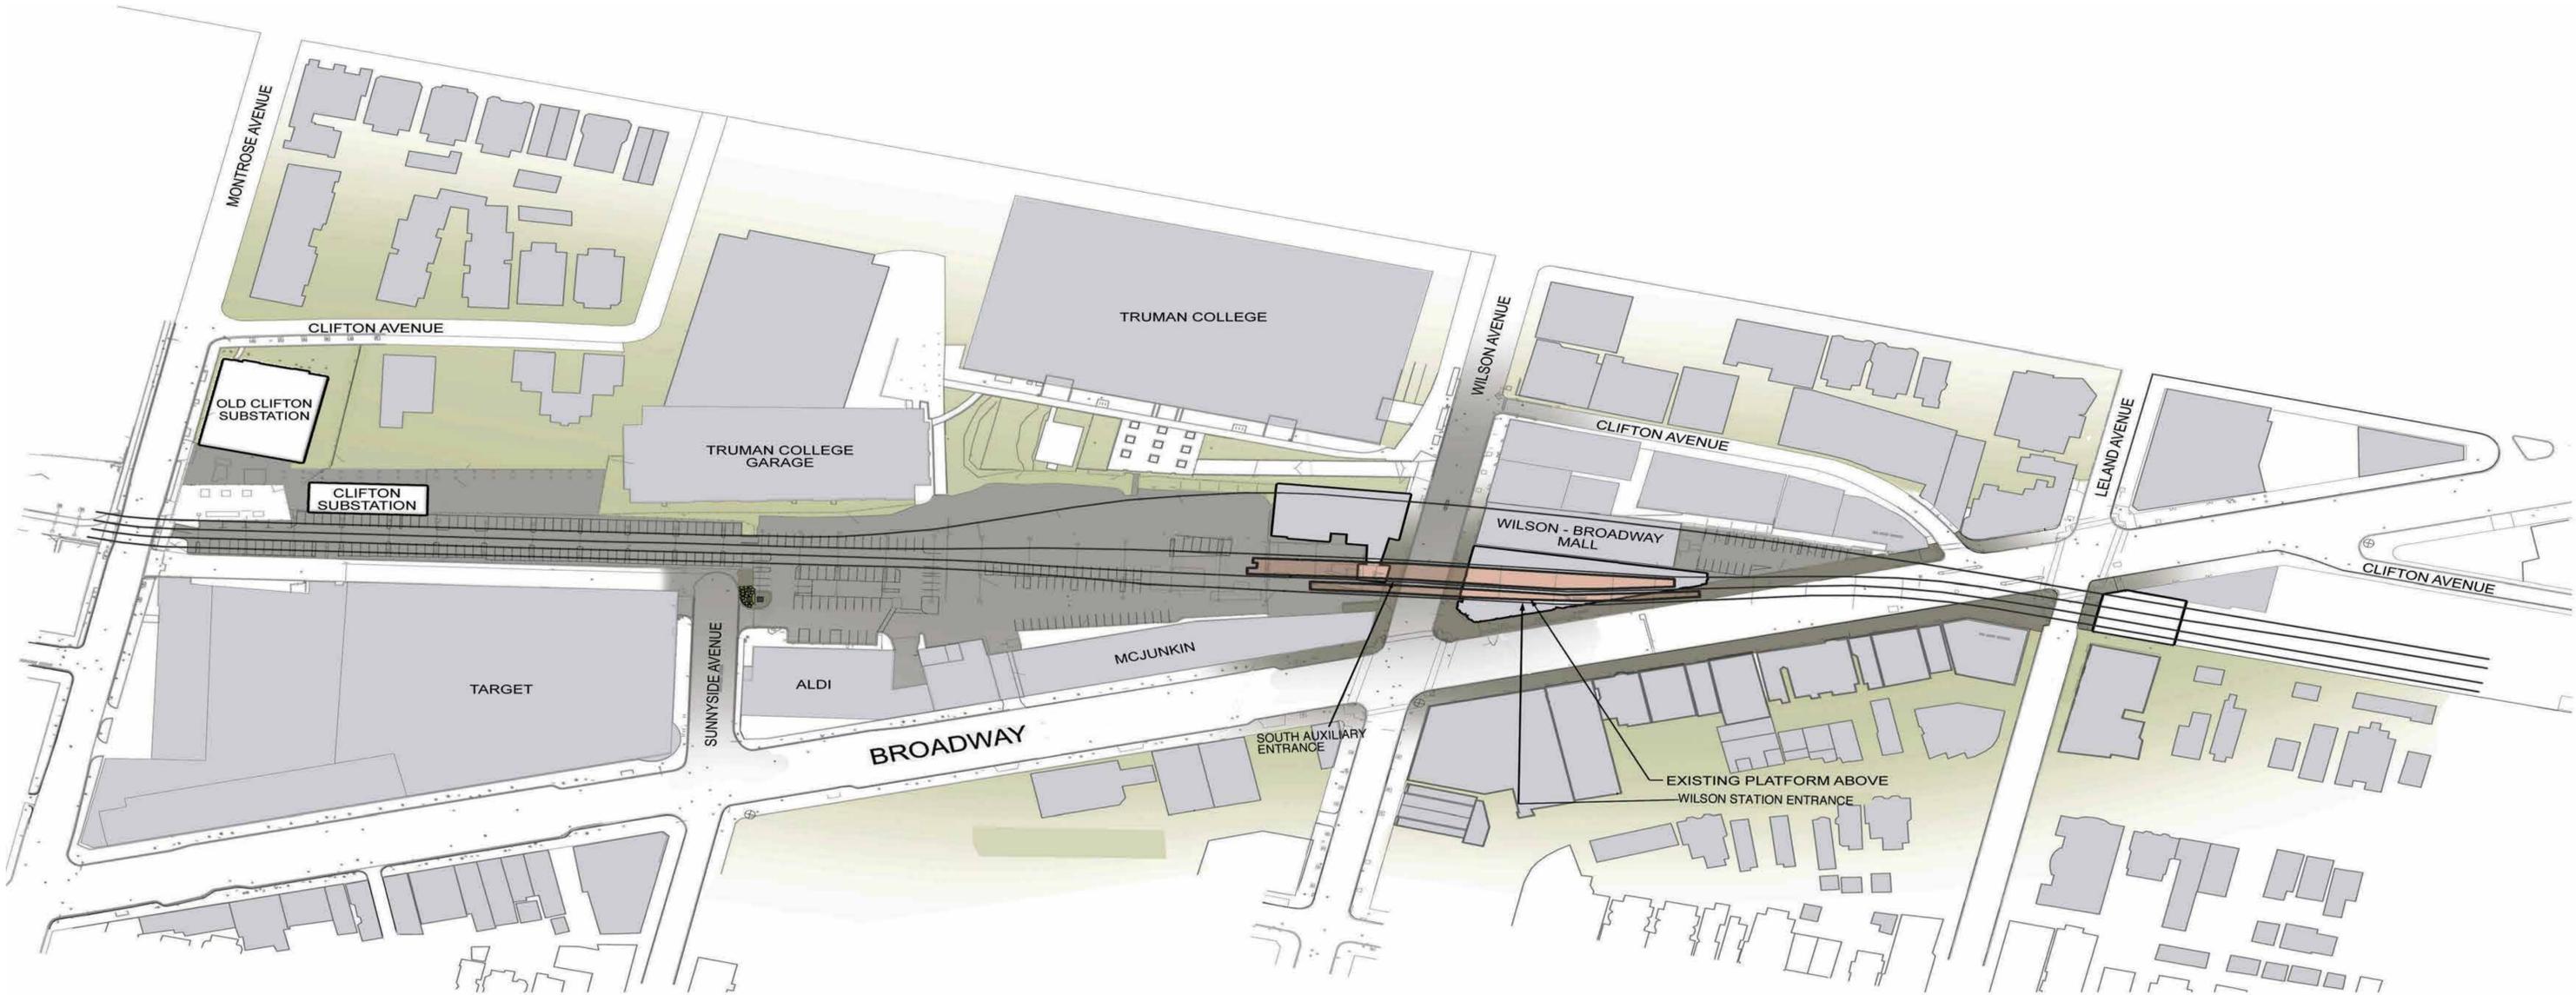

Construction Start: 2013

Construction Length: 33.5 months

- 🚆 Station to remain open during construction
- 🚆 Purple and Red Line trains may use same track during construction
- 🚆 Work will include track and bridge replacement

Wilson Transfer Station Project

Transit-Oriented Development

CTA and the City of Chicago will be coordinating with Uptown community stakeholders to work towards a vibrant, healthy and walkable retail environment on Wilson Avenue and Broadway.

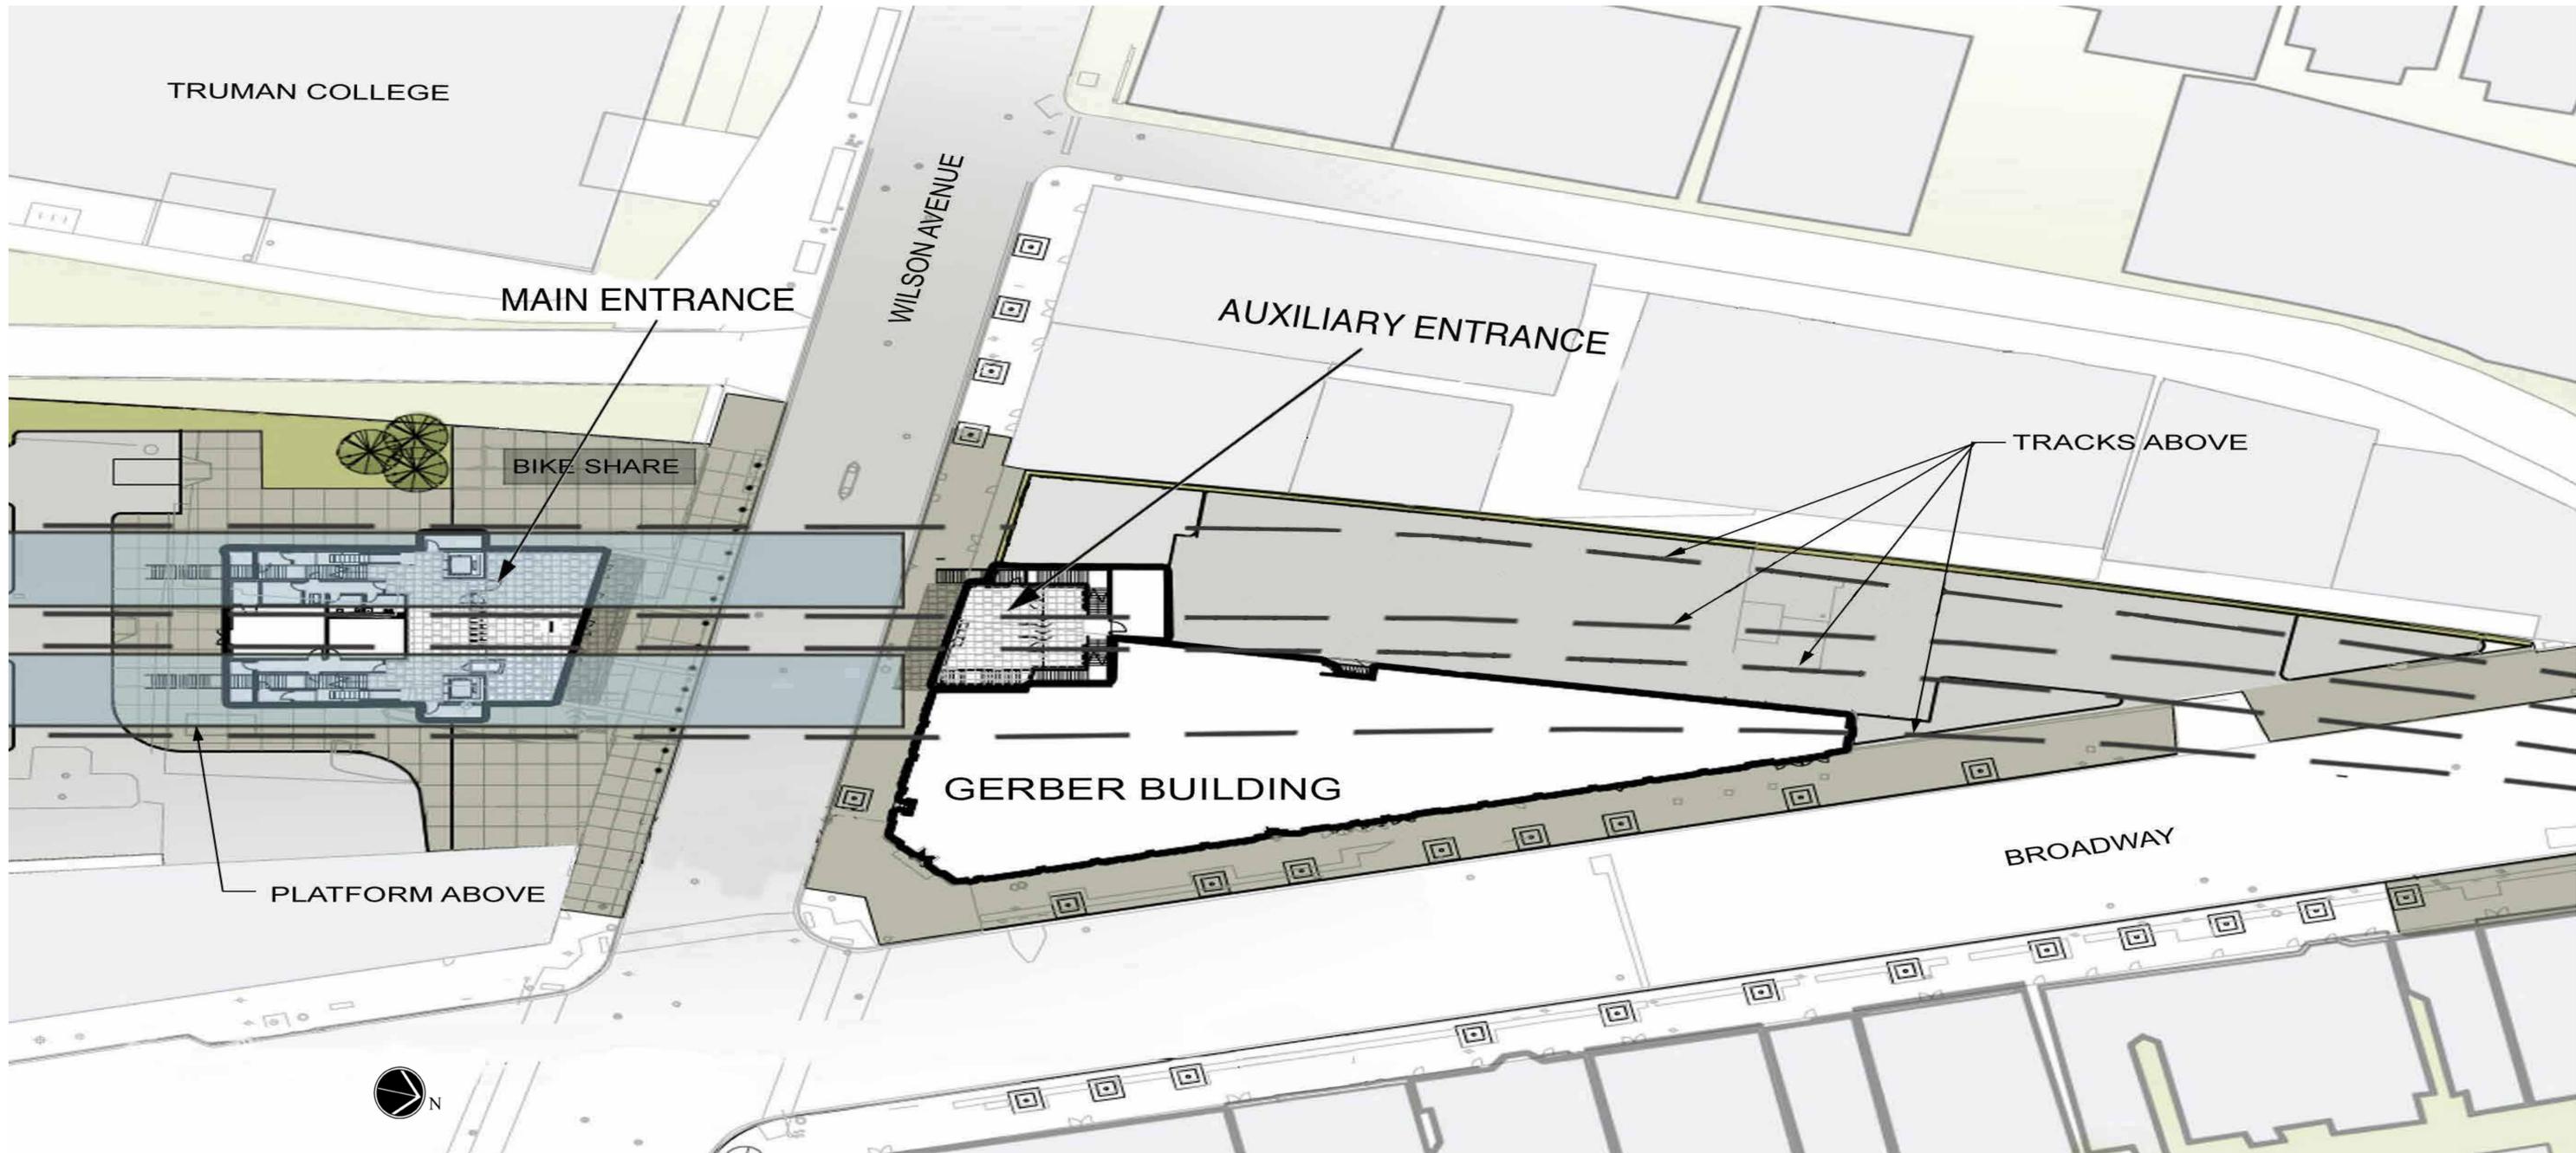

These areas on the south side of Wilson near the main station entrance will be assessed for Transit Oriented Development opportunities.

As part of the station construction project, the Gerber Building (northwest corner of Wilson & Broadway) will be restored and refurbished to make it an attractive and viable space for retail activities.
